The market is hard. What can you control?

[OUT OF YOUR HANDS]

~~Who hires you.~~

~~Who accepts your work.~~

~~Who funds your idea.~~

[IN YOUR HANDS]

- [ ] Your skills.
- [ ] The problems you practise on.
- [ ] The work you can show.
- [ ] What you learn.

I did the work before anyone paid me to.

Not every attempt got me the role I wanted. I kept everything I learned.

Start with a real problem.

01	**Apps you use daily**	Where did you get stuck?
02	**Open source projects**	The issues list tells you what's broken.
03	**Tutorials & guides**	Follow the steps. Note where they break.
04	**Hackathons**	Read how you'll be judged first.
05	**Bounties**	Paid tasks with a clear finish line.

TOO BIG

~~Fix sign-up for every app in Nigeria.~~

SMALL ENOUGH TO FINISH

New users can't finish this app's sign-up on Android.

Pick AI tools by the job.

[01 · THINK & RESEARCH]

chat — MEDIA SLOT · CHAT DEMO

```
> Why do people quit sign-up on an app?
1. Too many fields before any value
2. OTP SMS never arrives
3. Unclear errors on bad input
Check this with real users before you build.
```

Chat assistants help you research and plan. Check what they tell you.

EXAMPLE · DEMO VIDEO SLOT

PROBLEM	Traders' prices get lost on paper
DEMO	90-second video, live link, code
CHOICE	Used a spreadsheet: quicker to test
NOT YET	English only. No login. 3 testers.
RESULT	**Didn't win. Shared it anyway.**

[BEFORE YOU SUBMIT]

- [x] Someone else tried it
- [x] Short demo video
- [x] Public code, clear README
- [x] Your choices explained
- [x] What's missing, said honestly

Now anyone can judge it, even if it doesn't win.

You built all weekend for a hackathon.
You didn't win.

What do you have on Monday?

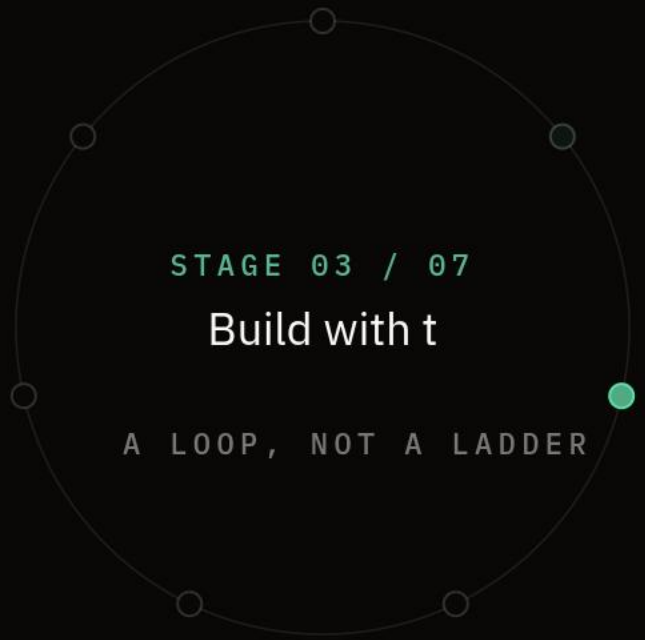

You didn't win the prize. You didn't leave with nothing.

None of it counts if nobody can see it. That's why you ship.

UNLOCKED A working prototype	UNLOCKED A public demo
UNLOCKED Skills with new tools	UNLOCKED Notes on your choices
UNLOCKED Real feedback	UNLOCKED A next version to build

UNLOCKED 6 / 6 0600 XP

Build up proof people can see.

FINAL QUEST · 48 HOURS 47:59:55

01 Pick one problem.

02 Build the smallest useful attempt.

03 Publish what works, and what doesn't yet.

04 Share it. Tag @0xgordian.

Getting picked means people can easily see what you can do. It's not a promise of a job.

Stop waiting.
Start building.
